

**Leaf Blower**

For efficient removal of leaves and debris  
in athletic fields, parks, and golf courses.

## Leaf Blower

For tractors from 45 hp.

Thanks to its powerful, quiet turbine, the MEGA TWISTER leaf blower is ideally equipped to remove leaves efficiently. Despite its high blowing performance, it has very low noise emission. This feature makes the MEGA TWISTER perfect for use in noise sensitive environments such as golf courses, hospital grounds, or neighborhoods.

Due to a unique swiveling mechanism, the blower can rotate 230° on the surface so that leaves and other materials can be continuously blown in one direction without needing to back up. It is also possible to work from left to right without any turning maneuvers. The air nozzle can be adjusted vertically by hand so the airstream can be adapted to the prevailing conditions. Optionally, a hydraulically adjustable nozzle and a drop down nozzle are available.

The MEGA TWISTER can come equipped with either a large steel roller or with two air filled tires (11 x 7-4).

### TECHNICAL DATA

<b>Attachment to compact tractors:</b>	Front or rear attachment
<b>Drive:</b>	Front or rear PTO shaft
<b>Measurements L/W/H in approximate inches:</b>	55/73/31
<b>Airspeed in approximate mph:</b>	112
<b>Weight in approximate pounds:</b>	838

Descriptions and illustrations are not binding. Changes in design and execution are possible.
